<div align="center">**CURRICULUM VITAE**</div>

S. GANAPATHY RAMASUBRAMANIAN

OVERVIEW

I have 3+ years of Experience in Dot Net

Hands on experience in C#, Core Dot Net, RestAPI, MySQL, SQL IIS Server, CPanel, HTML, CSS, JavaScript.

I have experience in handling IOT Microcontrollers and Sensors.

I have experience in the complete software development lifecycle (SDLC).

CAREER OBJECTIVE

To pursue a career in the software industry as an efficient and dependable employee being resourceful to the organization and play key roles, work with teams to result in great outputs.

COMPUTER PROFICIENCY

- ✔ Environment - Windows, Mac.
- ✔ Web Development - HTML, CSS, JavaScript, RestAPI, C# , Core API MySQL, MSSQL
- ✔ Frameworks - DotNet.
- ✔ Server - IIS.
- ✔ Tools - VS Code, Visual Studio, PhpMyAdmin, Photoshop, CPanel.

PROJECTS UNDERTAKEN

Project 1: **IOT – Live Sensing.**

Designation: Backend Developer and Frontend Developer.

Technologies: C#, Dot Net, RestAPI, MSSQL

Detail: This project is for getting live reading from IOT Device. I have written code for Micro-Controller to ON & OFF the Motor and Moisture status and power status will update through the web API and show this reading in a dashboard along with the live update.

Role:
- ✔ Development in Backend and Frontend.
- ✔ Configuring Micro-Controller.

Project 2: **Sales Report.**

Designation: Backend Developer.

Technologies: C#, Dot Net, MSSQL

Detail: This project is for mobile shop windows application to generate mobile model-based on sales reports in Excel Format. I have added a new dropdown box to pick the mobile model and modified SQL query. Then I did some big fixing.

Role:
- ✔ Development in Backend and Frontend.
- ✔ Bug-Fixing.

Project 3: **IOT Data Collection.**

Designation: Backend Developer.

Technologies: C++, C#, RestAPI

Detail: This project is for getting live reading from IOT Devices. I have written code for collecting data from a machine through the Dot Net Core RestAPI and displaying the data in the dashboard along with the live update.

Role:
- ✔ Development in Backend.
- ✔ Configuring Micro-Controller.

Project 5: **SMS.**

Designation: Backend Developer.

Technologies: Dot Net Core, C#, MySQL.

Detail: This project is for a finance company project to send OTP SMS to their customers. I have implemented an SMS API to send the SMS in backend at the same time I have handled DLT and SMS API Control Panels.

Role:
- ✔ Development in the Backend.
- ✔ Configuring and Registering in DTL and SMS API Provider.

STRENGTH
- • Technically Strong.
- • Easley adbot with Programming Languages.
- • Excellent in Explain Concepts to Others.
- • Eager to Learn New Technologies and Fast Learner.
- • I will be Friendly with Teammates and Clients.
